Late Model Pick 'Em Challenge

Top 10		Pass Differential	Fastest Lap	Most Laps Led
1st		1		1
2nd		2		2
3rd		3		3
4th				
5th				
6th				
7th				
8th				
9th				
10th				
Total Points				

Late Model Pick 'Em Challenge Rules

Top 10

- Fill out 1st through 10th with the car number of the associated driver you think will finish in that position. At the end of the race, if you got a driver's finishing position correct, you score their finishing position points.
- If any of the drivers you picked finish in the top 10 but not the corresponding position, you score 5 points. Points are based on the World of Outlaws Morton Buildings Late Model Championship Points structure.
- Example: Your picks are 2, 3, 4, 10, 17, 39, 51, 71, 74, & 98. The finishing order is 5, 3, 131, 11, 4, 27, 98, 71, 39, & 51. You would be awarded 67 pts for the 3 finishing second, 10 pts each for the 4, 98, and the 51 for finishing in the Top 10. Then 49 pts for the 71 finishing in 8th.

1st	70 Pts	6th	55 Pts
2nd	67 Pts	7th	52 Pts
3rd	64 Pts	8th	49 Pts
4th	61 Pts	9th	46 Pts
5th	58 Pts	10th	43 Pts

- Additionally, there are bonus points for drivers who win their Heat Races and the Last Chance Qualifier (LCQ). If a driver in your top 10 won their Heat Race, you are awarded an additional 15 pts. If a driver in your top 10 won the LCQ, you are awarded an additional 5 pts.
- Example: From your Top 10 in the previous example, the 98 and the 17 won their Heat Races. Both earn the 15 bonus points for a total of 30 extra points. As well as, the 51 won the LCQ. That would be an additional 5 pts for a total of 35 bonus points.
- Your total then is 181 pts.

Pass Differential, Fastest Lap, & Most Laps Led

- For these you get to select 3 drivers each. If any of the 3 is the driver who met the criteria, you gain points.
- Example: Your picks are 5, 55, & 80 for Pass Differential. The 55 ends up being the one who had the largest pass differential. You score those bonus points.
- Pass Differential - Calculated based on the drivers starting position subtracted from their finishing position. Example: The 55 car starts 40th and finishes 20th. Their Differential is 20.
- Fastest Lap - This is the driver who records the fastest lap time in the race.
- Most Laps Led - This is the driver who leads the most laps during the race.

Final results for PICK 'EM will be tweeted out after the race.

* The maximum amount of points that can be acquired during an event is 1,000 pts *
